## Non-Contact Infrared Thermometer

The new **RIDGID® micro IR-100** provides simple, quick, and accurate surface temperature readings at the push of a button. You simply squeeze the trigger and point the ultra-sharp dual lasers at the surface being measured.

Temperature measurements are instantly provided on a clear, easy-to-read backlit LCD display. For repeatable and even more accurate measurements, the micro LM-100 can also be mounted and used on a tripod.

Product .....	<b>RIDGID® micro IR-100</b>
RIDGID cat. no. ....	<b>36153</b>
Weight.....	0,3 kg
D:S.....	20 : 1
Laser.....	Dual, Class II
Accuracy.....	± 1 °C
Alarm.....	Audible, High & Low
Measurements.....	Current and Max. temp
Continuous Measurement:.....	Yes

## Combustible Gas Detector

The **RIDGID® micro CD-100** provides simple and quick readings to quickly identify the presence of combustible gases. The detector is designed to detect methane, propane, carbon monoxide, ammonia, hydrogen and many other combustible gases.

The micro CD-100 has a rugged ergonomic design and features adjustable sensitivity settings, allowing for quick, precise leak locating even in low gas levels. The Tri-Mode Detection™ gives the operator the flexibility to be alerted with a visual, audible or vibration alert, adjustable for each environment.

<b>Product</b> .....	<b>RIDGID® micro CD-10</b>
<b>RIDGID cat. no.</b> .....	<b>36163</b>
Weight.....	0,45 kg
Sensitivity.....	Adjustable, High & Low
Sensor / Calibration .....	Replaceable / Automatic
Detection Range.....	0-6400 ppm (methane)
Alarms .....	Visual, Audible, Vibration
Probe .....	Yes, 50 cm

## Laser Distance Meter

The **RIDGID® micro LM-100** is the ultimate compact Laser Distance Meter that provides quick and accurate distance measurements up to 50 meters. Although small in size, the micro LM-100 is big on features!

Addition, subtraction, area/volume calculation, indirect and continuous measurement are all easily accessible through shortcut keys while results are clearly readable on the bright backlit LCD display.

The micro LM-100 also features a protective over molding, making it perfectly suitable for use in even the harshest jobsite conditions.

**Product** ..... **RIDGID® micro LM-100**  
**RIDGID cat. no.** ..... **36158**  
Weight ..... 0,2 kg  
Range ..... 50m  
Laser ..... Ultra-sharp, Class II  
Accuracy ..... 1,5 mm  
Measurement display ..... Last 3 measurements  
Measurement units ..... Inches, feet, meters  
Memory ..... Yes, 20 measurements
