

RIDGID

Max™ rM200 with Self-leveling Head

SeeSnake® Max™ rM200 Camera System

Video Inspection System

The rM200 Camera System combines portability and versatility to make your drain inspections easy and efficient. The rM200 features a newly designed push cable for greater abrasion resistance and more efficient pushability.

- **Next Generation Push Cable and Improved Reel Mechanics** make inspections easier than ever allowing you to push further with less effort.
- **Ultra Compact Self-leveling Camera Head** allows easier passage through tight turns while still illuminating pipes up to 6".
- **Transport Enhancements** let you carry your reel or use the optional wheel system for greater job site portability.
- **Docking System** allows you to attach monitors for easy transport and connected viewing.
