

Steel Tape Measures

Dedication and commitment to the Professional have resulted in a new and improved line of Steel Tape Measures from RIDGID®.

The new innovative design incorporates heavy-duty rubber bumper and stainless plate cover for superior durability to withstand tough job-site conditions and the “tool bucket drop test”.

Features and Benefits

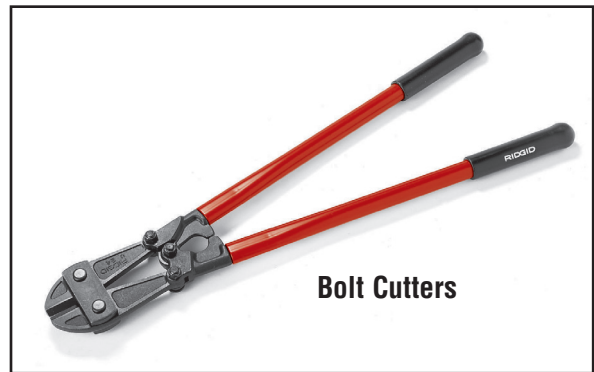

- Built-in Shock Bumper that reduces impact to the end hook when rewinding.
- Stainless Steel Belt Clip that is more durable.
- Full Steel Hook with Slot and anchored by 4 rivets for more durability, able to hook onto a nail head.
- Superior blade-to-hook strength.
- Stainless Steel clad case with full surround anti-slip, soft touch rubber that is more compact, durable and impact resistant.
- Extra wide 1 1/8" blade with a more stable 9 ft. “stand-out” blade extension.
- Non-glare matte finish and larger numbers for easier reading.
