# RIDGID   RIDGIDConnect™

RIDGIDConnect is an online website designed for contractors and service providers that will allow you to create and share media rich reports with your customers that include videos, documents, and pictures often collected from your jobsites.

RIDGIDConnect Allows You To:

- Create and share media-rich job reports with customers and coworkers which include videos, documents, and pictures
- Associate any type of digital file or media
- Add bookmarks or extract key images from videos to highlight important points in your inspections
- Control the reports you share with an expiration date on access, by limiting the total number of views, or by determining if you want to easily allow someone to download a copy of the files
- Built-in contact management allows you to easily find reports for previous customers or addresses
- Keep private, company-only notes about jobs and customers to help recall service information
- Schedule and assign jobs to dispatch work within your company
- Upload directly from the SeeSnake HQ™ desktop software into your RIDGID Connect account. Your report data is transferred without needing rework
- Share from your HQx Live app into the RIDGID Connect mobile app when both are installed on your device
- Your information is always accessible online and organized so you don't need to worry about storage and backups
- Use the desktop application to compress long videos for faster uploads
- You choose how long to keep files in the system. Utilize the site as an online archive or keep reports only a short period of time
- Use tags to quickly organize and look up your data

Create Branded Reports

Add Comments to Your Media

Seamlessly Collect Files
