

NEW

Models 600-I and 690-I Handheld Threading Machines

The new portable handheld threading machines from RIDGID are designed to thread pipe easier, faster and more efficiently. Models 600-I for pipe sizes up to 1¼" and 690-I for pipes up to 2" are the new generation of RIDGID handheld threaders, including features that will definitely add value to your work on the job site, every day.

- Quick release system helps you avoid extra hassle when installing and removing the die head (690-I only).
- 2-jaw design support arm for better grip and increased safety during operation.
- Over moulded handle and contoured grip provides optimal control.
- Screw in brush covers improve serviceability.
- Durable die cast gear housing and fiberglass reinforced plastic body design promote machine uptime.
- Quick starting dies help you thread pipe faster and easier than ever before.
