

# RIDGID PRO PACK Wet/Dry Vac

The RIDGID® Pro Pack™ wet/dry vac is designed to provide power, portability, and organized storage. Its shape and size approximate that of a tool box which is great for storing and transporting the vac to and from the job site. The accessory nozzles, 20-foot power cord and collapsible 7-foot Tug-A-Long hose are contained inside the vac beneath hinged compartment covers. Specially designed clips provide storage on the back of the unit for the two included extension wands. Completing the package are a 5.0 peak horsepower motor, 3-layer fine dust filter and patented Scroll Noise Reduction® technology.

FEATURES	BENEFITS
• 5.0 Peak HP Motor	Provides powerful performance comparable to larger size wet/dry vacs.
• Weighs only 15.5 Pounds	Easy portability to and from job sites.
• Large Pivoting Handle	Cushioned handle folds flat into top of vac. Allows the vac to be easily stacked, stored and carried.
• Self-Contained Storage	The hose, 20' power cord and accessories neatly store inside vac so transporting the vac to and from job sites is hassle free.
• Wand Storage Brackets	Keeps wands conveniently accessible.
• Sound Reduction Technology	Scroll Noise Reduction® is a patented feature that provides quiet operation by precisely controlling the flow of air through the vac.
• 3-Layer Fine Dust Filter	Captures fine dust particles such as dry wall dust.
• Tug-A-Long® Locking Hose	Locks the expandable 2' to 7' hose to the vac so it won't pull loose during use.
• Long 20' Power Cord	Allows cleaning over a wide area. Cord neatly stores inside the vac.
• 130 MPH Blowing Capability	Blow saw dust from tools and debris from other areas.
• Included Accessories	1-7/8" flexible, Tug-A-Long® Locking Hose that expands to 7', 2 Extension Wands, Utility Nozzle, Crevice Tool, Dusting Brush and 3-Layer Fine Dust Filter.
