

RP 340 Press Tools

Only RIDGID® could provide a large capacity press tool at the size and weight of a mini tool! Even though it is 30% smaller and 17% lighter, it still delivers the same dependable performance with the added benefits of 25% longer service interval and the unique ability to use either corded or battery power in the same tool!

- RP 340 is 30% smaller and weighs up to 17% less than it's predecessor (RP 330).
- Extreme long service interval only after 42,000 cycles.
- The corded model – RP 340-C – now features a detachable 220V Mains Adapter and can be interchanged with the new 18V 'Advanced Lithium' Batteries, offering the user maximum flexibility and all the advantages of both a corded AND battery-powered tool.
- White LED-light for continued operations in low-light environments.
- Micro-processor controlled pressing cycles and state-of-the-art electro-hydraulics on board of the RP 340, guarantee long and carefree use.
- Optimal performance, with the new 18V 'Advanced Lithium' Batteries and 230V Advanced Lithium Charger.
- Compatible with standard series pressing jaws from RIDGID and other manufacturers.

Specifications

- Capacity: 10-108mm.
- For use with Copper, Steel, Stainless Steel, PEX and Multilayer Tubing.
- 270° Barrel/Jaw Swivel.
- Hydraulic Ram Output: 32kN.
- Weight RP 340-B: 3,76kg (incl. 18V 2.0A Advanced Lithium Battery).
- Weight RP 340-C: 4,29kg (incl. 220V Mains Adapter).
- Operating Temperature Range: -10°C to 50°C (15°F to 122°F).
- Approximate Cycle Time: 4 seconds.
- LED-light For Continued Operations In No- or Low-light Environments.
- Extreme Long Service Interval. Reminder at 40.000 / Shutdown at 42.000 Pressing Cycles.
- Standard Kit RP 340-B: Press Tool, 18V 2.0A Advanced Lithium Battery, 230V Advanced Lithium Charger and Carrying Case.
- Standard Kit RP 340-C: Press Tool, 220V Mains Adapter (5m cable) and Carrying Case.
- Compatible With Standard Series Pressing Jaws From RIDGID and Other Manufacturers.
