PRESS TOOL

RP 340 PRESS TOOL

Introducing the next generation of Pressing Technology from RIDGID®.

Built to Impress.

BENEFITS

• **30% smaller tool** increases maneuverability.*
• **17% lighter tool** reduces operator fatigue.*
• **31% longer service interval** (up to 42,000 cycles) maximizes uptime.*
• **More than 400 presses per charge** (with Advanced Lithium 4 Battery).
• **Ultimate flexibility** with the ability to switch between battery and AC power on the same tool.

*Sversus RP 330-B

SPECIFICATIONS

• Capacity: ½” – 4’ (Copper and Stainless Steel), ½” – 2’ (PEX)
• 270˚ Barrel/Jaw Swivel
• Hydraulic Ram Output: 7,200 lbs. (32kN)
• Weight: 8.5 lbs. (w/Battery), 9.5 lbs. (w/AC Power Adapter)
• Operating Temperature Range: 15°F to 122°F
• Approximate Cycle Time: 4 seconds
• LED-light For Continued Operations In No or Low-light Environments
• Longest service interval in the industry: 42,000 Cycles
• Compatible With All Standard Series Pressing Jaws and Attachments From RIDGID®
• For Use With Copper and Stainless Steel Tubing, Steel Pipe, PEX and Cutting Soil Pipe.
• Battery Tool Kit Includes: RP 340 Press Tool, (2) 18V Advanced Lithium 2 Batteries, 120V Advanced Lithium Battery Charger, and Carrying Case
• Corded Tool Kit Includes: RP 340 Press Tool, AC Power Adapter and Carrying Case

STANDARD PRESS JAWS AND ACCESSORIES

**Standard Jaws for ProPress®**
Jaws are designed in conjunction with the Viega® ProPress system to ensure total system compatibility when joining ¼” – 2” copper and stainless steel tubing.

**Standard Jaws for PureFlow™**
Jaws are designed in conjunction with the Viega PureFlow system to ensure total system compatibility when joining ½” – 2” PEX tubing.

**Rings for ProPress**
Rings for ProPress permit access in tighter spaces and serve as an excellent complement to your RIDGID® jaw sets. The swivel actuator allows a press tool to be placed +/- 90 degrees to the tube being pressed for ½” - 2” connections.

**ProPress XL-C® Rings**
XL-C Rings and V2 Actuator Jaw include a patented swiveling feature that allows the tool to be placed +/- 90 degrees to the tube being pressed, allowing greater access in tight spaces. Designed in conjunction with the ProPress XL-C fittings, these rings work with RIDGID® Standard Press Tools ensuring total system compatibility with 2½” - 4” connections.

**MegaPress® Jaws & Rings**
Jaws & Rings join ½” to 2” commercially-available Schedule 5-40 Black Iron Pipe when used with RIDGID Standard Press Tools and Viega MegaPress Fittings.

**Press Snap™ Soil Pipe Cutter**
The Press Snap Soil Pipe Cutter expands the capabilities of RIDGID Standard Press Tools by providing a fast and easy way to cut cast iron soil pipe. Without lengthy lever arms used by traditional soil pipe cutters, improved access is a snap.
