Subject to availability & location

Innovative design makes working with faucet fittings and retaining nuts easier than ever.

- Built-in, water-resistant LED light provides direct illumination of your work
- Pivoting, removable T-handle allows you easier access in tight spaces
- 3/8" square drive connection lets you use your ratchet or breaker bar for additional leverage and maximum torque
- Ergonomic textured handle increases leverage and improves grip
- New body design enables effortless telescoping from 10" to 17"
