No Cord. All Power.

Pipe stand pictured not included.

FXP™
TECHNOLOGY PLATFORM

Thread pipe quickly and precisely with the battery powered RIDGID® 760 FXP™ Power Drive. The FXP™ Technology Platform offers portability and provides the power to achieve up to 30 2" threads per charge.* Sensors within the tool detect kickback and automatically shut it off for added control. The Power Drive delivers industry-leading speed with added features like workspace lights and LED alerts when the thread is nearing completion. This tool provides everything you need to get the job done.

- **FXP Battery Power:** Delivers 30 2" threads per charge*, providing long-lasting run time on professional-grade tools
- **Speed:** Cut high quality threads on 1/2" - 2" pipe and conduit faster than the competition**
- **Control:** Tool automatically shuts off when kickback is detected
- **Convenience:** LEDs illuminate the die head and notify the user when the thread is nearing completion
- **Brushless motor:** Provides optimal output, enhances efficiency, and reduces downtime with no scheduled maintenance
- **Smart:** RIDGID Link app provides information to better understand tool usage, performance, and maintenance needs

*With a fully charged 4Ah battery on 2" Schedule 40 pipe. **Faster on 1-1/2"-2" Schedule 40 Pipe.
