

# KJ-5000 GEN IV Water Jetter

**RIDGID**<sup>®</sup>

## CLEAR 2" to 10" (50mm to 250mm) DRAIN AND SEWER LINES

The RIDGID Model KJ-5000 portable water jetter gives you 5075 psi actual working pressure to handle commercial and industrial pipe clearing applications. This jetter propels a highly flexible and lightweight hose through 50mm to 250mm lines - blasting through sludge, soap, grease, and sediment blockages. As you pull the hose back, it power scrubs the line flushing debris away and restoring drain lines to their full, free-flowing capacity - all without the use of harmful chemicals.

### ► POWERFUL PRESSURE

Actual working pressure of 5075 psi (350 bar) and flow of 6.1 gpm (23 lpm)

### ► ELECTRIC START

Honda GX690 electric start petrol V-twin engine with anti-vibration protection mounts and an engine hour meter

### ► GAS ENGINE

25L fuel tank with level gauge integrated under the chassis mount

### ► WATER CUT-OUT SENSOR

Low level water cut-out sensor for pump protection

### ► FULL MOBILITY ON THE JOB

Oversized puncture proof wheels with nylon bush bearings
